Authorize.net Setup for Media Platform

This document offers guidance on integrating Authorize.net with the Media Platform

This guide provides an overview of the processes for:
• Signing up
• Setting up API Access
• Setting up Silent Post URL
• Setting up Relay Response
• Setting up Payment Form

1. Signing Up

You must have a merchant account with Authorize.net. To setup an account, please visit the following site: http://www.authorize.net/solutions/merchantsolutions/pricing/.

Your account must have at least the following services: Customer Information Manager (CIM) and Automated Recurring Billing. At the time of this writing, these services are included for free.

To begin processing live transactions, make sure **Test Mode** is turned **OFF** and the account is set to **LIVE**.

2. Setting up API Access

Once you have created your merchant Account, you need to allow API access to Streaming Media Hosting's Media Platform.

• Log into the Merchant Interface at https://account.authorize.net
• Click **Account** from the main toolbar.
• Click **Settings** from the menu on the left.
• Click **API Login ID and Transaction Key** from the General Security Settings section.
• Under **Create New Transaction Key**, enter the answer to your Secret Question.
• Click **Submit**
• Copy your **API Login ID** and your newly generated **Transaction Key** into the Authorize.net Setup fields in the **Media Platform** (See Figure 1 & 2)
• Click **Save Changes** on the Media Platform to complete the integration

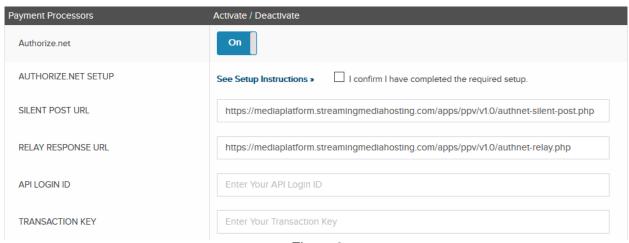

Figure 1

Figure 2

You must also enable the **Transaction Details API** in your Authorize.net account.

• Log into the Merchant Interface at https://account.authorize.net
• Click **Account** from the main toolbar.
• Click **Settings** from the menu on the left.
• Click **Transaction Details API** from the General Security Settings section.
• Enter the answer to your Secret Question then click **Enable Transaction Details API**

3. Setting up Silent Post URL

Silent Post URL is an Authorize.net feature that sends messages about payments and recurring billing directly from Authorize.net to Streaming Media Hosting's Media Platform.

• Log into the Merchant Interface at https://account.authorize.net
• Click **Account** from the main toolbar.
• Click **Settings** from the menu on the left.
• Click **Silent Post URL** from the Transaction Response Settings section.

• In the URL field, enter the following line:
    https://mediaplatform.streamingmediahosting.com/apps/ppv/v1.0/authnet-silent-post.php

• Click **Submit** (See Figure 3)

Figure 3

4. Setting up Relay Response

Relay Response is an Authorize.net feature that sends transaction details immediately upon payment completion from Authorize.net to Streaming Media Hosting's Media Platform.

- Log into the Merchant Interface at https://account.authorize.net
- Click **Account** from the main toolbar.
- Click **Settings** from the menu on the left.
- Click **Relay Response** from the Transaction Response Settings section.

- In the URL field, enter the following line:
  https://mediaplatform.streamingmediahosting.com/apps/ppv/v1.0/authnet-relay.php

- Click **Submit** (See Figure 4)

Figure 4

5. Setting up Payment Form

You must configure your payment form to display at least the following form fields:

Payment Information
- Card Code

Order Information
- Description

Customer Billing
- First Name
- Last Name
- Address
- City
- State
- Zip Code
- Email

- Log into the Merchant Interface at https://account.authorize.net
- Click **Account** from the main toolbar.
- Click **Settings** from the menu on the left.
- Click **Payment Form** from the Transaction Submission Settings section.
- Click **Form Fields**

Payment Information
